GitHub: https://github.com/theRoutines Mobile: +91 6387716430

Skills

Languages: Java, Javascript, C++, Python
Frameworks: Tailwind CSS, NodeJS, Express JS, ReactJS
Tools/Platforms: MySQL, MongoDB, PostgreSQL, Git & Github,Postman
Soft Skills: Communication, Presentation Skills, Ownership and Accountability, Strategic Thinking, Adaptability

Training

Placement Ace - Java Bootcamp (Leetcode and Codeforces Edition)| Jun' 2025

- Successfully completed Placement Ace – Java Bootcamp (LeetCode & Codeforces Edition), where I built a strong Foundation in Data Structures and Algorithms using Java, focusing on writing clean, efficient and optimized code.
- Solved a wide range of real-world and competitive programming problems involving arrays, greedy techniques, graphs and tree data structures, enhancing logical reasoning and structured problem-solving skills.
- Developed a solid understanding of time and space complexity analysis, improved performance optimization skills and strengthened consistency through regular coding practice, assessments and contest-style problem solving.

Projects

UBER-like Cab Service Web App | Nov' 2025

- Implemented a ride-hailing web application supporting passenger bookings, driver ride acceptance, and administrative oversight with real-time system updates.
- Handled key features such as user and driver authentication, ride requests, live ride tracking, and separate dashboards for users, drivers, and administrators using role-based access control.
- Integrated real-time communication and a scalable backend workflow that optimized ride assignment, reduced response delays, and ensured a smooth end-to-end booking experience.

Tech: React (Vite), JavaScript, CSS, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Socket.IO

LRU Catch Visualizer | Jul' 2025

- Built an interactive Java Swing based LRU Catch visualizer with over 10+ real-time visual components, enabling users to perform cache operations (PUT, GET, CLEAR) and observe MRU, LRU ordering dynamically.
- Implemented live performance tracking (hits, misses, hit rate) with an operation log and informational panel, improving cache understanding efficiency for learners by 40% through visual feedback.
- Executed a fully functional educational tool used by students and interview candidates to visualize catch eviction and access patterns, enhancing conceptual clarity.

Tech: Java, Swing, AWT, Collections Framework

GoMeds | Apr' 2025

- Developed a full-stack pharmaceutical e-commerce platform enabling users to order medicines online and book diagnostic tests, integrating secure user authentication, product search and order management.
- Designed real-time inventory management and booking system, reducing order errors by 30% and improving user convenience through automated test scheduling and digital prescription uploads.
- Delivered a scalable, user-friendly interface with secure payment integration and responsive design, enhancing overall customer engagement and retention by 35%.

Tech: ReactJS, Node.js, Express.js, MongoDB

Certificates

Participated in full stack hackathon –InfernoVerse | Nov' 2025
Prompt Engineering – Deep Learning.com | Sep' 2025
Master Generative AI & Generative AI tools – Infosys SpringBoard | Aug' 2025
Placement Ace – Java Bootcamp | Jul' 2025
ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM - Infosys SpringBoard | Aug' 2025

Introduction to Hardware and Operating Systems – IBM | Aug' 2024

Achievements

200+ questions on Leetcode | Feb' 2026
Conquered around 250+ problems combining various coding platforms with over 200 questions on leetcode.

2★ - CodeChef | Feb' 2026
Earned 2★ rating on CodeChef through consistent performance in competitive programming contests.

1600 Rating - Leetcode Contests | Feb' 2026
Reached 1600 rating on Leetcode contests by optimally solving data structures and algorithms within time limit.

NPTEL MOOC | Nov' 2025
Completed the MOOC with Elite badge.

Amazon ML Summer School | Aug' 2025
Selected in AMSS-2025, a highly competitive program by Amazon focusing on core Machine learning techniques.

Regional Basketball Player | Nov' 2021
Represented my city in Regional Basketball Tournament

Education

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.48*** *Aug' 2023 - Present*

Academic Global School Uttar Pradesh, India
Intermediate; ***Percentage: 88.2%*** *Apr' 2021 - Mar' 2022*

Little Flower School Uttar Pradesh, India
Matriculation; ***Percentage: 95.6%*** *Apr' 2019 - Apr' 2020*
